

PROVIDENCE

Healthcare & Rehabilitation Center

Touching your life in extra, ordinary ways

When you need medical care or rehabilitation therapy—either short-term or long-term—you want a name you can trust. For decades, Providence Healthcare & Rehabilitation has earned people's trust by providing consistent quality care, and then doing the little, extra things that touch people's lives.

REHABILITATION SERVICES — *therapeutic programs to restore health and mobility*

This Providence Healthcare & Rehabilitation Center teams up with leaders in rehabilitation services to help people of all ages rebuild skills that have been diminished by illness or accident. Stay on campus during the length of your recovery program, and licensed Speech, Occupational, and Physical Therapists will tailor your rehab program to meet your specific needs and goals. We combine state-of-the-art equipment with caring encouragement to help you regain maximum independence. The amenities you'll enjoy here are all excellent — but the sense of ministry behind it all is what really makes the difference.

SKILLED NURSING CARE — *medical care for short- or long-term needs*

Providence can also be here when the need is more permanent, and our memory support services are particularly sensitive.

Providence is about possibilities — a colorful spectrum of services, opportunities, and options. When you stay with us, you'll enjoy:

- ❁ **Peace of mind**, knowing that staff are available at the press of a button
- ❁ **Ongoing growth**, through activities that are both therapeutic and recreational
- ❁ **Delicious nutrition** — a full menu of nourishing choices, including three meals a day, plus snacks any time!
- ❁ **Physical fitness**, through rehab and exercise programs
- ❁ **Convenience** — we share a campus with Saratoga Grove, giving you additional options as your care needs change

Providence is about people — employees who serve from the heart, and residents who are getting the most out of every day.

Providence is about peace of mind — sheltered in the shadow of God's almighty wing, we gain the confidence of knowing we are right where we belong.
