## MEMORY SUPPORT AT VICTORIAN INN

Victorian Inn is here to help. With creative programming and credentialed staff, we are helping families find a better way through Alzheimer's.

### THE GILEAD PROGRAM ❁

We call our Memory Support program “Gilead,” after an area mentioned in the Bible as a source of medicinal herbs such as balm, which was used to provide soothing solace, and relief. Our Gilead Program is a source of relief to families who need additional emotional or medical resources in order to give their loved one needed care.

#### SPECIALIZED TRAINING

Caregiving staff who work in our Gilead Program all receive 12 hours of training each year. They learn about the pathology of Alzheimer's Disease, the types and causes of memory loss, the latest forms of treatment, and strategies for communicating with people whose language skills have been diminished by the disease. This training equips our staff to design customized service plans that improve quality of life.

#### CUSTOMIZED SERVICE PLANS

Assuring that your loved one's needs are met is a priority that Victorian Inn is equipped to handle. We build relationships with our residents to learn as much as possible about their interests and background, so we can make meaningful connections through relevant activities. Studies have shown that involving multiple senses can activate memories in different ways, so we make a variety of activities available. We design activities that engage residents physically, intellectually, and socially. Creative arts, Bible studies, dancing, baking, singing, and more — all provide opportunities for daily success and enjoyment. The service plans we create are customized according to resident needs, family schedules, and personal preferences.

#### WITH YOU, FOR YOU

Both the Gilead program and the Victorian Inn community provide a peace of mind you can *feel*. Family members are as involved as they choose to be, and Gilead staff become an extension of the care each family knows their loved one deserves.

# A SAMPLING OF GILEAD PROGRAMMING

A typical day of Memory Support at Victorian Inn involves a predictable structure — because routine is important to people with memory impairments. Within that structure, a range of activities is available.
